

# 6<sup>th</sup> Annual Pharma Manufacturing & Automation Convention 2024

Advancing Manufacturing: Embracing Automation and Innovation

Hotel Westin Mindspace, Hyderabad

October 17<sup>th</sup> – 18<sup>th</sup>, 2024

The pharma industry is undergoing a transformative evolution with the integration of advanced manufacturing technologies and automation systems. In the 2-day program 6<sup>th</sup> Annual Pharma Manufacturing and Automation Convention 2024, focused on embracing automation and innovation; leaders, experts, and professionals are set to explore the latest trends, challenges, and advancements shaping the future of pharma. Eminence Business Media has scheduled the conference for October 17<sup>th</sup> – 18<sup>th</sup>, 2024 at Hotel Westin Mindspace, Hyderabad.

Day one of the conference will delve into cutting-edge topics such as Industry 4.0 implementation strategies, advanced automation technologies, data integrity in manufacturing processes, and compliance requirements. Discussions will centre around harnessing the power of robotics, artificial intelligence, and lean manufacturing principles to optimize production processes and enhance operational excellence.

Day two will pivot towards practical insights on IT infrastructure integration, regulatory compliance considerations, and predictive maintenance strategies for automated systems. Case studies and best practices in robotics and AI applications will be shared, emphasizing the importance of seamless integration and quality assurance in pharmaceutical manufacturing.

Attendees can expect a deep dive into the regulatory landscape governing automated manufacturing, ensuring that compliance and quality standards are met across API manufacturing and formulation companies. This comprehensive agenda aims to equip industry professionals with the knowledge and tools needed to thrive in the era of digital transformation and innovation within the pharmaceutical manufacturing sector.

---

### Why to Attend:

- ) **Expert Speakers:** Engage with a line-up of distinguished speakers, including industry veterans, innovators, and experts who have spearheaded transformative initiatives. Their first-hand experiences and knowledge will provide invaluable guidance for attendees.
- ) **Interactive Q&A Sessions:** Participate in interactive Q&A sessions with speakers and panellists. This is a unique opportunity to directly engage with thought leaders, ask questions, and gain personalized insights that address your specific challenges and concerns.
- ) **Real-World Case Studies:** Dive into real-world case studies that showcase successful implementations of automation in pharmaceutical manufacturing. Learn from practical examples that demonstrate how automation has improved efficiency, quality, and compliance.
- ) **Networking Opportunities:** Connect with professionals, peers, and potential collaborators from across the pharmaceutical and automation industries. Forge meaningful relationships, exchange ideas, and explore potential partnerships that could drive your projects forward.
- ) **Future Insights:** Gain a glimpse into the future of pharmaceutical manufacturing. Delve into discussions about emerging technologies, AI-driven processes, and their potential impact on the industry's evolution.
- ) **Networking Reception:** Join us for a lively networking reception where you can relax, unwind, and continue conversations in a casual setting. Forge connections, exchange business cards, and build relationships that extend beyond the conference.

---

### Who will Attend:

From CXOs, Managing Directors, Presidents, and Vice Presidents to Sr. GMs, GMs and mid-level management, everyone can reap the benefits of this platform to learn and network with industry peers stalwarts.
